# BRAYAN FORERO

## Software Developer

I am a informatic engineer, with knowledge in the development of server-side applications and the management of relational databases.

Responsibility and discipline are my bases to face new challenges and to be able to offer software of quality that allow me to meet the objectives set. I like learning constantly, as it helps me grow as a person and as a professional.

# WORK EXPERIENCE

### Conocimiento Corporativo S.A.S

April 2022- May 2022

I developed a birthday webpart, where the birthday people of the month and users can leave their message, this in turn will reach the mail of the person who meets that day with a selected image, this solution is focused to display on a sharepoint site using SPFX and react 16 with typescript.

### Conocimiento Corporativo S.A.S

October 2021 - May 2022

I was given the opportunity to train in angular, thanks to which it allowed me to provide support in a project made in angular 8, where sections of the code were corrected and debugged, in ddition to add new features (new functionalities).

### Conocimiento Corporativo S.A.S

May 2021 - May 2022

I am part of the development team for solutions at the Office 365 level, providing support in more than four (4) projects, using tools such as powerapps and powerautomate, integrating them Sharepoint sites for data consumption. Likewise, I developed various flows to automate tasks such as mailing, data calculation, record version managementin sharepoint, among other requirements.

# EDUCACIÓN

### Universidad Politécnica Territorial Agroindustrial del Táchira(UPT)

Informatic Engineering. December - 2020

# CURSOS

### Conocimiento Corporativo - Colombia

Angular from scratch, through udemy subscription - October 2021.

### Conocimiento Corporativo - Colombia

Powerapps and powerautomate development with a udemy subscription - 2021
